

INTERNAL STATEMENT STRUCTURE

FORTRAN X

RELOCATABLE STATEMENT RECORD FORMAT FORTRAN X

Instruction

CONSTANTS

EQUATE

SELECTIVE OUTPUT BLOCKED 5 (16x5=80)

PROPOSED HOI FORTRAN RELOCATING ROUTINE SYMBOLIC CARD

- ① - Option to clear word mark - Indicate clear option
- ② - Number of characters to be loaded $1 < X < 19$
- ③ - Table address if referenced by T-type statement (if any)
- ④ - De Ha table address (if any)
- 5 - Delete circled condition referencing condition switch. First char is condition code.
